

Eye witness Account / STATEMENT OF FACTS

By PAT McNULTY

I am the brother of Bill McNulty and Gary P. Newman was married to my older sister. In 1971 I was in the 10th grade and my brother was a year ahead of me at SAN RAFAEL High School in SAN RAFAEL, CA.

GARY Newman was in the U.S. Coast Guard and worked at the lighthouse on the Point Reyes Peninsula in Marin County, CA. He also stayed on property in a small house that the government supplied. My Brother and I would stay on weekends and visit them.

GARY and another coast guard member was growing some MARIJUANA plants nearby.

One weekend we went to visit and my brother in law pulled Bill and myself aside and told us about what he had done and that the plants had gotten very big and ~~that~~ had a feeling that his supervisors was on to them.

The plants needed to be harvested and gone!
He didn't even want to show Bill and my
self ~~exactly~~ were in case he was being watched.
So he made a map.

He made a map of the location of the
plants as I witnessed. He gave Bill my
brother the map and ask him to find someone
he could trust to harvest.

I PAT McNUITY personally witnessed
this event first hand

This is my true statement of the facts
